Clicking on Ingredients adds them to recipe search and highlights them.

Sort By: Fields

by most days in fridge.
by type (Vegetable, Fruit, Meat, Dairy)

Display the logged-in user's ingredients. If we can figure out how to watermark images, it would be awesome! We would try to use a watermark or some other effect to mark Communal Items.

Clicking the "Add Item" Button redirects to a new page to add an item. If we can figure out how to do this in a dialog box, that would be amazing.
